

How to play

Objective:

Your goal in the game is to collect all the blue boxes scattered around the level by making the tower collapse. To do this, you need to shoot the balls at the right places of the tower, making it unstable and eventually fall down.

Shooting:

To shoot, **press and hold the left mouse button** to increase the force of the shot, then release to shoot the ball at the tower. Try to aim accurately to hit the right spots that will cause the tower to collapse with the least amount of shots possible.

Panning:

To pan around the pedestal, **press and hold the right mouse button** while moving your mouse in the direction you want to look. This allows you to view the level from different angles and help you aim more accurately.
